Ad-don is ready, what next?

Firstly, congratulation!

Icon

Recommended is to reuse existing base icon for Locus.

All icons are available in sample application. Available sizes are for **mdpi**, **hdpi**, **xhdpi**, **xxhdpi** and also big 512×512 icon.

Bottom left corner is ready for styling, so feel free to re-use it and update it.

Icon is available for Locus add-ons only.

Information in Locus

Add-on may be added into list of add-ons directly in Locus application.

For this we need:

- **icon** 64×64 px
- **name** of add-on
- short **description**. Keep it up to around 150 chars
- **package name** of your add-on
- **starting point** - activity with LAUNCHER category

With these information, we may add your add-on to the list directly in Locus application

Information on Google Play

… and other possible Stores.

On the end of your text (listing), add

```
Add-on for application Locus Map
```

Because this text is searched directly from Locus when users search for more add-ons!

Propagation

Our Facebook, Google+, BLog on homepage are ready to write something nice about your work!
