Add-on is ready, what next?

Firstly, congratulations!

Icon

Re-use existing base icon for Locus is recommended.

All icons are available in sample application. Available sizes are for **mdpi**, **hdpi**, **xhdpi**, **xxhdpi** and also big 512×512 icon.

Bottom left corner is ready for styling, so feel free to re-use it and update it.

Icon is available for Locus add-ons only.

Information in Locus

Add-on may be added into list of add-ons directly in Locus Map application.

For this we need:

- **icon** 64×64 px
- **name** of add-on
- short **description**. Keep it up to around 150 chars.
- **package name** of your add-on
- **starting point** - activity with LAUNCHER category

With these information we may add your add-on to the list directly in Locus Map application

Information on Google Play

… and other possible Stores.

In the end of your text (listing), add

- *Add-on for application Locus Map**

Because this text is searched directly from Locus when users search for more add-ons!

Propagation

Our Facebook, Google+, Blog on homepage are ready to write something nice about your work!
