Maps2mapc

This page is obsolete and will be reworked soon

How create a sqlitedb file with Maps2mapc

Basic information

- Locus currently support wide range of map formats (more here). But most common formats are not yet covered. If you want convert your maps to some format usable by Locus, you may look on program MAPC2MAPC.

- Firstly, suggest to test working demo version if this fits your needs. Here is description from author of MAPC2MAPC, how to…

- In case you'll be satisfied, I suggest to buy full version by **Buy** button on bottom of manual page. Thanks to this, you'll get 10% discount of this product

- **MAPC2MAPC:** http://www.the-thorns.org.uk/mapping/

Additional knowledge base information

- Convert IMG maps to a sqlitedb Locus map
- Convert pictures to a sqlitedb Locus map
