

Geofun

- made by [World Media Partners s.r.o.](#)
- download from [Google Play](#)

A Czech geo-location-based game project consisting of a set of Wherigo-like games. It popularizes Czech natural, technical, architectural and historic places of interest.

Geofun webpage contains a direct link enabling mass import of all Geofun games starting points to Locus. It is possible to work with the points the same way as with any ordinary points - sort them, filter them, display them on map, navigate to them etc.:
