Offline maps

Menu > Settings > Maps > Offline maps

PERSONAL MAPS

Map auto-load

Enables automatic loading of maps (SQLite-based) according to actual GPS position. There is no need to select maps when out of one, Locus Map switches it on automatically. There are three options:

- *no map auto-load*
- *auto-load maps of identical type only* (e.g. SQL - SQL or MBT - MBT)
- *auto-load maps of any type* - at first Locus Map checks availability of identical map type and then switches on map of any type covering the desired area

LOMAPS & OTHER VECTOR MAPS

Map auto-load

Enables automatic loading of available vector maps according to actual GPS position. There is no need to select maps when out of one, Locus Map switches it on automatically.

Text size

Enables setting size of vector maps texts on scale from 50 to 500% of the default size.
