Configuration File

This page is obsolete and will be reworked soon

- Locus type: <html>Free/Pro</html>, **2.3.2+**
- Last updated manual: **2.3.2**

Description

- Since version 2.3.2, Locus offer advanced configuration possibilities through *config.cfg* file placed into **root directory of Locus** on your **card/memory**
- This file is manually created when Locus starts for first (if not exist). Data are loaded at start and flushed in the end back to file, so if this file allow changing some settings that are also changeable in the application, settings will not be lost.
