Information in Locus

Add-on may be added into list of add-ons directly in Locus Map application.

For this we need:

- icon 64×64 px
- name of add-on
- short **description**. Keep it up to around 150 chars.
- package name of your add-on
- starting point activity with LAUNCHER category

With these information we may add your add-on to the list directly in Locus Map application
