

Maps2mapc

This page is obsolete and will be reworked soon

How create a sqlitedb file with Maps2mapc

Basic information

- Locus currently support wide range of map formats (more [here](#)). But most common formats are not yet covered. If you want convert your maps to some format usable by Locus, you may look on program [MAPC2MAPC](#).
- Firstly, suggest to test working demo version if this fits your needs. [Here](#) is description from author of MAPC2MAPC, how to...
- In case you'll be satisfied, I suggest to buy full version by **Buy** button on bottom of manual page. Thanks to this, you'll get 10% discount of this product
- **MAPC2MAPC**: <http://www.the-thorns.org.uk/mapping/>

Additional knowledge base information

- [Convert IMG maps to a sqlitedb Locus map](#)
- [Convert pictures to a sqlitedb Locus map](#)
