

I need to be navigated to that pub on the map...

Locus Map can help, of course!

- long-tap the place on map, a label with address appears

- tap  button and select  **Navigate to** In default settings you must be online to get the navigation started

- select one of the offered means of transport

- route appears on map, let's go!

More about **Navigation** in Locus Map can be found [here >>](#)
