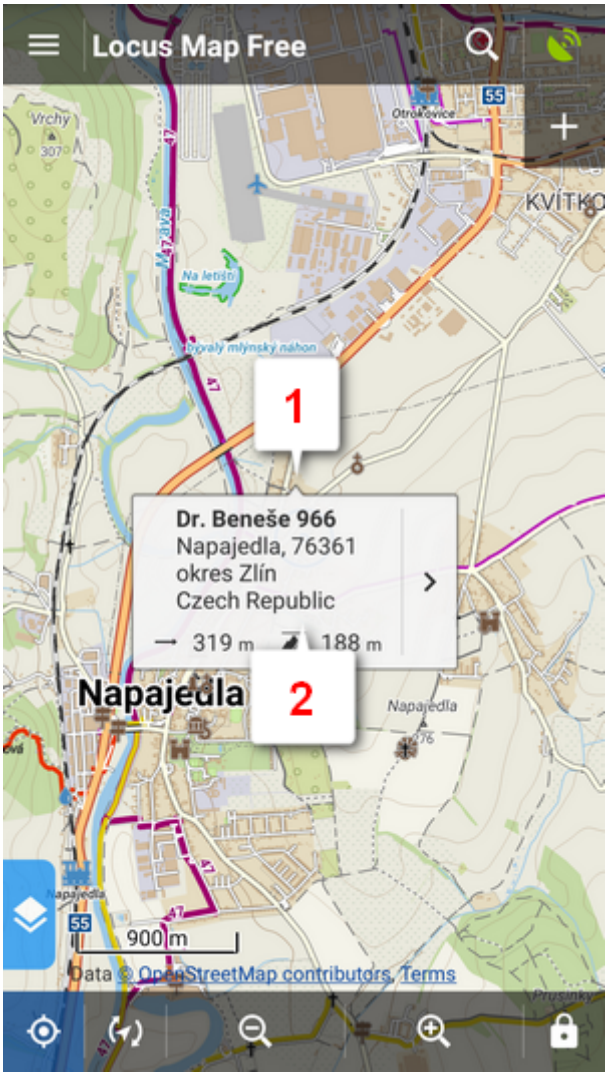
How to place a point of interest on the map?

BTW, what is a point of interest, a.k.a. POI?

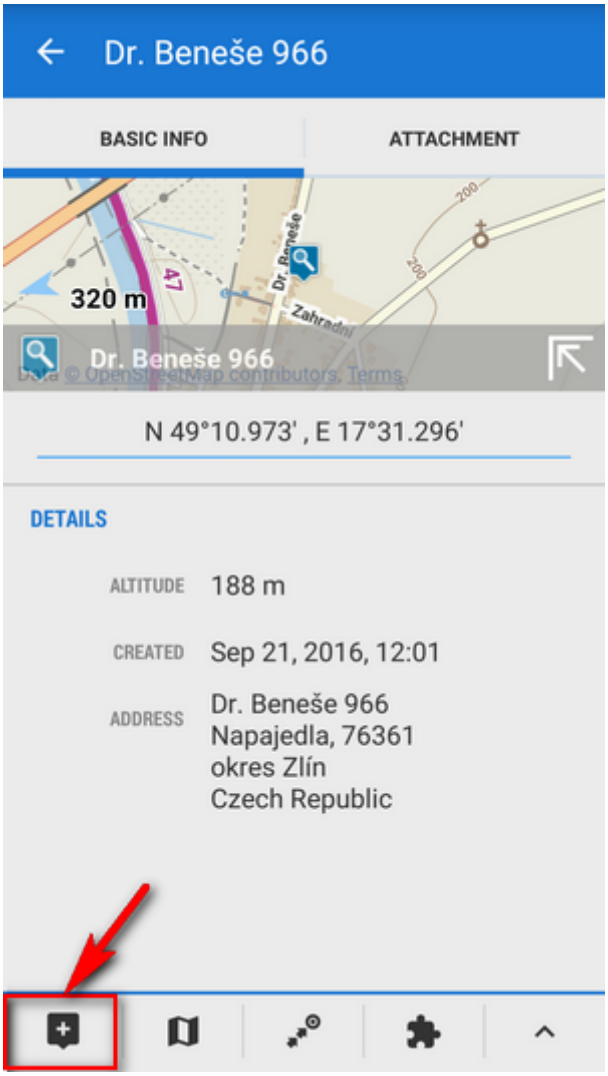
POIs are places on the map that carry some more information you are interested in. **Just tap them**. Usually they describe things like **monuments, theaters, museums, pubs, hotels** etc.

Locus Map allows you to place **your own POI** to mark anything you like on your trip, to show your friends your address on holidays or to let yourself navigate to it. It'simple:

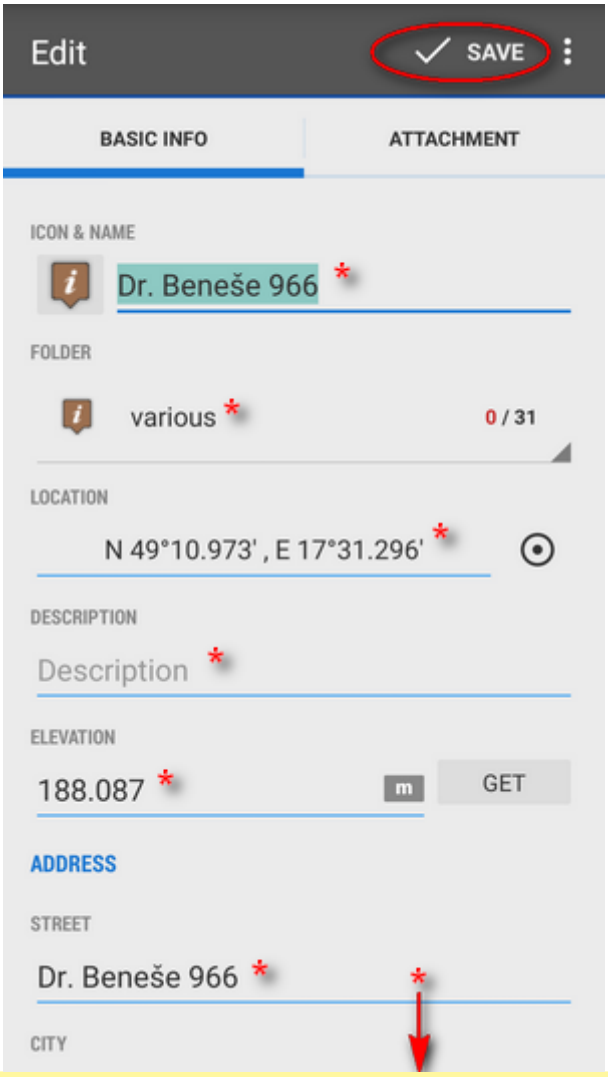
- touch the screen on the place you'd like to save and hold a sec. A small frame with address appears. Tap it once more to open the POI detail window.



- tap in the left lower corner.



- edit name of your point or just leave what is in the place of name and tap **Save**.



POIs are listed in the Data manager Points tab right next to your tracks.
