

How can I record my trip track?

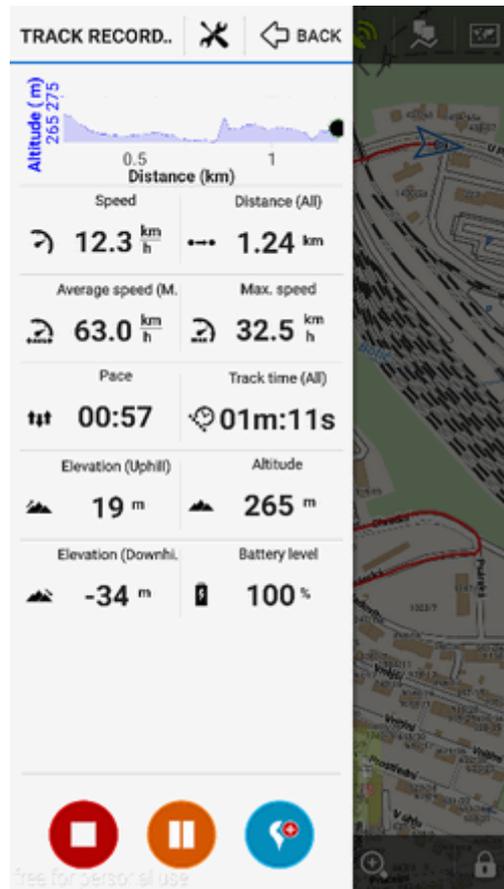

Do you want to show the trip to your buddies? No problem with Locus Map:

- turn your GPS on. The GPS icon  must be green
- tap **Menu > More** and select  **Track recording**. Tap the  **green button** on the tracking panel and your track is being recorded. `<html>

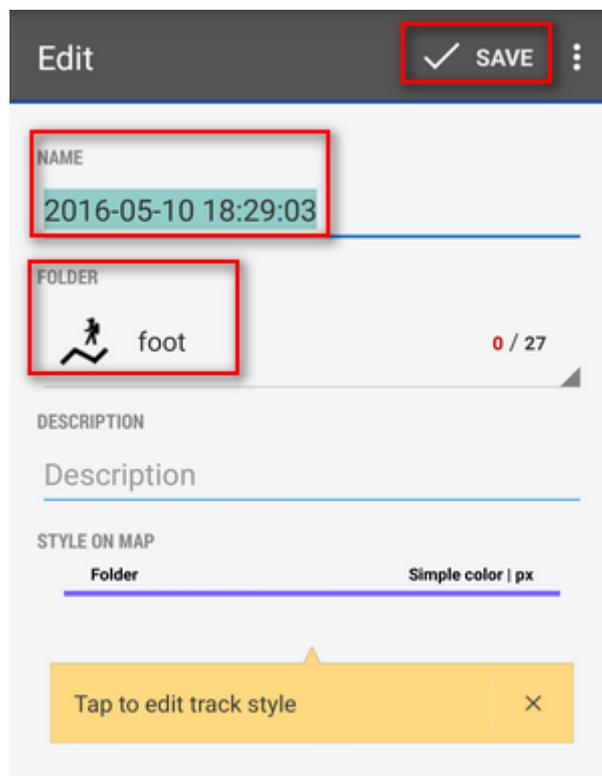

</html>`
- you can see the tracking right on the map - the  blue arrow is **drawing a line**.

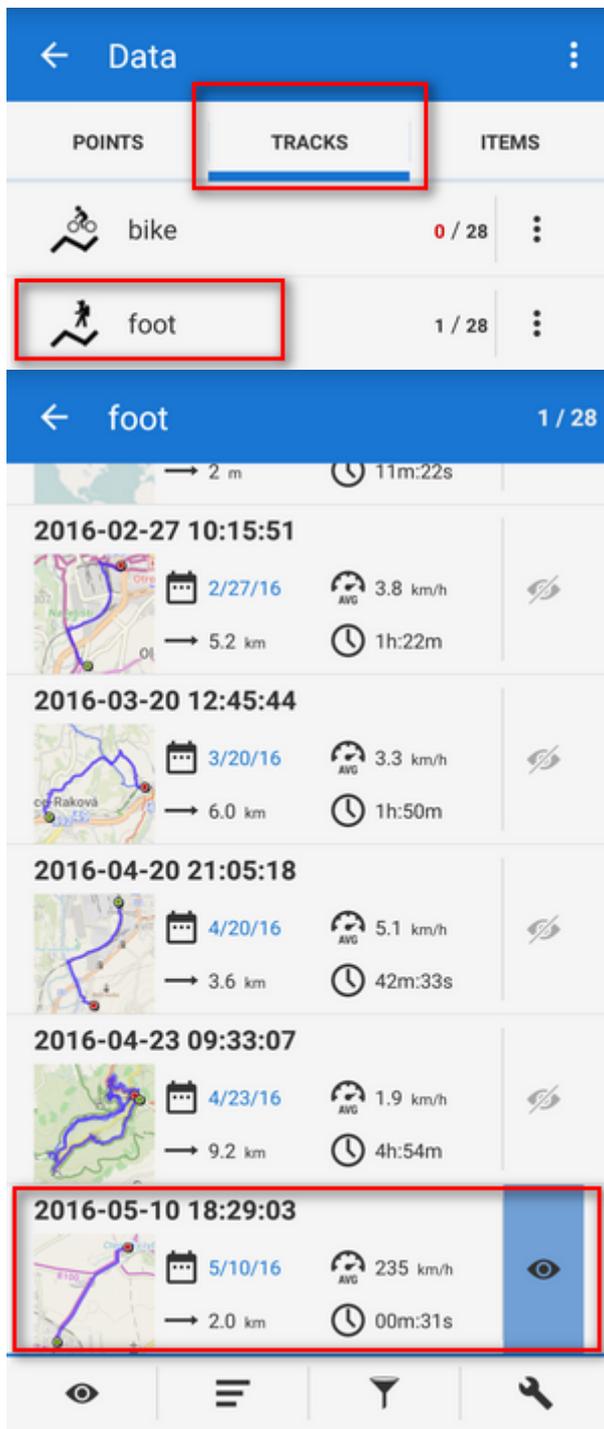

- when you get to the finish of your trip, tap the red  **Stop** button.

- name your trip or just leave it named by the date stamp and tap **Save**. Your trip is saved and you can boast with it to your friends.

- the track you recorded is saved in the **Tracks tab** that you can find under the

- For more about track recording see the chapter [Track recording](#).
