What's Locus Map?

Like going for a **bike ride**? Or **hiking in the mountains**? What about **looking for geocaches** in your neighborhood? Or **visiting a city** you've never been to before? Then **Locus Map** is your true companion!

- It shows you where you are in the middle of nowhere on an offline map
- It guides you through a geocache hunt
- It navigates you along the streets to the newly opened sushi restaurant

And you can do many more!

- Record your favourite bike tracks
- Store your trip highlights
- Export your daily runs directly to Runkeeper or other services.

Locus Map surprises you every day, it's loaded with functions you haven't ever expected you would need sometimes. For example you'll never forget where you **parked your car** in front of a big mall.

So here we go!
