What's Locus Map?

Like going for a **bike ride**? Or **hiking in the mountains**? What about **looking for geocaches** in your neighborhood? Or **visiting a city** you've never been to before? Then **Locus Map** is your true companion!

- It shows you where you are in the middle of nowhere on an offline map
- It guides you through a geocache hunt
- It navigates you along the streets to the newly opened vegan restaurant

And you can do many more!

- Record your favourite **bike tracks**
- Store your **trip highlights**
- Export your **daily runs** directly to **Runkeeper** or other services.

Locus Map surprises you every day, it's loaded with functions you haven't ever expected you would need sometimes. For example you'll never forget where you **parked your car** in front of a big mall.

So here we go!

For your first steps with Locus Map see the tutorial:

<html><iframe src="*www.youtube.com/embed/MDrb6wbtTVY*" *width="560" height="315" frameborder="0" allowfullscreen=""*></iframe></html> </WRAP>

If you need more information about the Locus Map application, check section **About Locus Map** of this User Guide.
