

Munzee Add-On

About

- download from [Google Play](#)
- **Munzee** is a scavenger hunt game of the new generation. This add-on displays Munzees on map, Munzee details, hunters' details and users can comments on Munzees.
- after installation it can be started from [Menu > More > Munzee](#) (in the add-ons section)

Instructions of Use

1. tap Munzee button in [Menu > More > Munzee](#) (in the add-ons section)
2. enter your [Munzee.com](#) login and allow Locus Map access to Munzee
3. check **display on map** and close the dialog
4. Munzees display on your map
5. clicking  unfolds a quick menu for navigation, guiding and compass

Basic Info

- tapping on a Munzee icon opens a Munzee detail window. The **Basic info** tab displays the Munzee coordinates, number of captures, date of deployment, name of creator and other information
- clicking  button in the lower left corner launches the Munzee official app to **capture the found Munzee**

If you do not have the official Munzee app installed you will be re-directed to [Google Play](https://play.google.com/store/apps/details?id=com.munzee) to install it. Capturing Munzees without the official app is not possible.

- other buttons have the same functions as for ordinary POI

Logs

- **Logs** tab displays logs of the Munzee. Tapping a particular log opens a menu offering display of the logging user profile and sending a message over the Munzee.com website
- tapping  adds **a new comment**:
 - general comment
 - unable to locate
 - needs repair
