

Parcel Info Add-On

- made by Help Service Remote Sensing Ltd.
- download from Google Play

The module provides information about cadastral parcel and parcel searching for Locus users. After installation two new items are available on main Locus menu: “Cadaster Info” which provides information about parcel at cursor and “Search parcel” which enables find the parcel on a map. Cadaster info is also available in context menu. The functions may be placed to Functions panel for quick access.
