Locus Store - About

Locus Map is a sophisticated multi-functional navigation app that can work with various data from many free sources. However, it is also a widely upgradable software of which the user's experience can be enhanced by paid items. The central manager of Locus Map in-app purchases is the **Locus Store**. Here you can buy commercially distributed **maps**, professionally edited opendata, extra **features**, databases of **points of interest** and many more.

Locus Store Screen

- Menu > Store
- many more ways, e.g. from the Maps Manager<html>

</html>
- **topbar** - contains only **User Profile** button

- **tabs** - basic divisions - 🔧 **Fix Me!**
- ☐ bude se přepracovávat
