

Locus Store - About

Locus Map is a sophisticated multi-functional navigation app that can work with various data from many free sources. However, it is also a widely upgradable software that can be enhanced by paid items purchased directly within the application.

Locus Store is the central manager of Locus Map in-app purchases. Here you can buy commercially distributed **maps**, professionally edited opendata, extra **features**, databases of **points of interest**, **graphic elements** and many more.

Purchases in Locus Store are paid by **LoCoins**, virtual currency that can be obtained in the Store as well.

Locus Store Screen

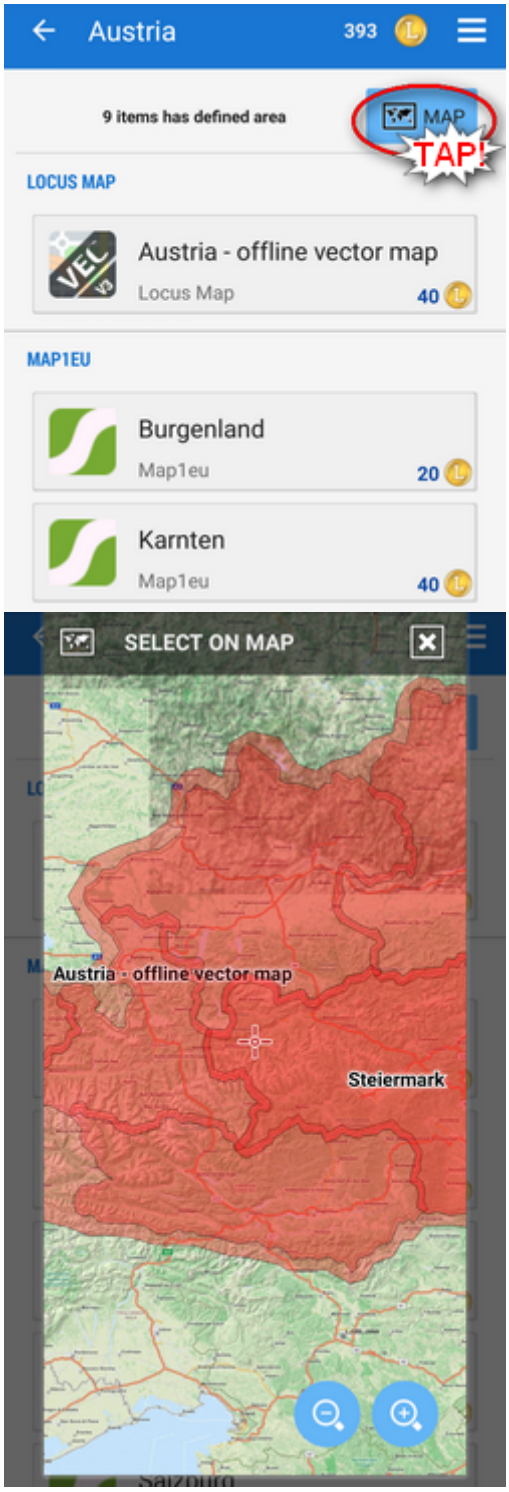

- Menu > Store
- many more ways, e.g. from the Maps Manager<html>

</html>
- **topbar** - contains user's **LoCoin** credit and **User Profile** button
- **tabs** - basic division of offered items - maps,

How to Purchase Maps

- **get LoCoins >>**
- search the product you want to buy - browse folders

Offline map packages to download can be displayed above an overview map. Tap Map button and you exactly know what area you are buying.

- tap your selected product to unfold its detail

- tap **PURCHASE**
- your map appears in your **personal maps tab** or **Vector tab** in case you bought **Locus Maps**.

Each map provider has different terms of use of their maps. Some maps are online only, some offline only, some can be downloaded repeatedly, some only once so pay attention to this. important box
