# Main Menu and its Settings

# **Main Menu**

The first six buttons of Locus Map's main menu can be set according to your needs (similarly to the Functions Panels):

- open the Main menu
- long tap any of the first six main buttons

• select another function from the portfolio and tap it

• the button shortcut has been changed

# More functions ->

By default, this section contains **all features and functions** Locus Map provides which can be a bit too complex for somebody - it is possible to activate only those buttons of features you are going to use and others deactivate. It's simple:

tap button in the upper bar

active buttons are blue - by tapping you can deactivate them - they turn red
