Audio coach

(ex "training manager")

Limited use in Locus Map Free - only one training possible

Audio coach comments your performance during a workout or a trip with voice notifications of your actual or average speed, distance, pace, elevation, heart rate and many other parameters.

It works with **training** schemes that are defined by the user and triggered together with track recording. If you have a Locus Pro version, you can define training schemes for any type of your sports activity.

How to set up a new training

- go to Settings > Track recording > Audio coach
- tap 💆 and insert **name** of the training scheme. Change the **icon** if necessary.

	← Add new 'traini	ng'	
	ICON & NAME	7 30 CANCEL ADD	
• your training appears in the t	raining list . Tap its	• menu and se	lect Setup event

Last update: 2017/03/10 manual:user_guide:tracks:recording:trainingmanager https://docs.locusmap.eu/doku.php?id=manual:user_guide:tracks:recording:trainingmanager&rev=1489152842 13:34

• tap 🛨 again and select **distance** or **time** notification

• define the **distance or time interval** of notifications and add variables - **distance, track time, pace, average speed, elevation and heart rate** (if proper sensor is connected). All

How to start Audio coach

Audio coach independent on recording profile

 go to Settings > Track recording > Audio coach and tap the training you want to activate it highlights <html>red</html>

You can choose any track recording profile, the Audio coach will comment any of them with the same training scheme.

Automatic Audio coach start

It is possible to join a particular training scheme to a particular recording profile and start both at once without further setting.

• side-slide track recording panel contains an option to select Audio coach training scheme

Last update: 2017/03/10 manual:user_guide:tracks:recording:trainingmanager https://docs.locusmap.eu/doku.php?id=manual:user_guide:tracks:recording:trainingmanager&rev=1489152842 13:34

 select recording profile, select training and press START. The training will stay assigned to your selected recording profile for future use.

You can assign the training scheme to a recording profile also in the Settings section:

• go to Settings > Track recording > Recording profiles

• select recording profile > profile settings menu => Training auto-start

← Recording profile	•
