

LoCoins - Our Virtual Currency

All purchases of products (maps, routes, guides, features, services...) made in Locus Store are paid in  **LoCoins** (LC). That is because some payments are so tiny that in EUR or USD they would be out of payment terms of Google Play Store and each item would require individual in-app billing entry maintenance which would be very time-consuming and bureaucracy-frustrating. LoCoin exchange rate oscillates around 1.3 EUR (incl. VAT for EU countries) = 100 LC.

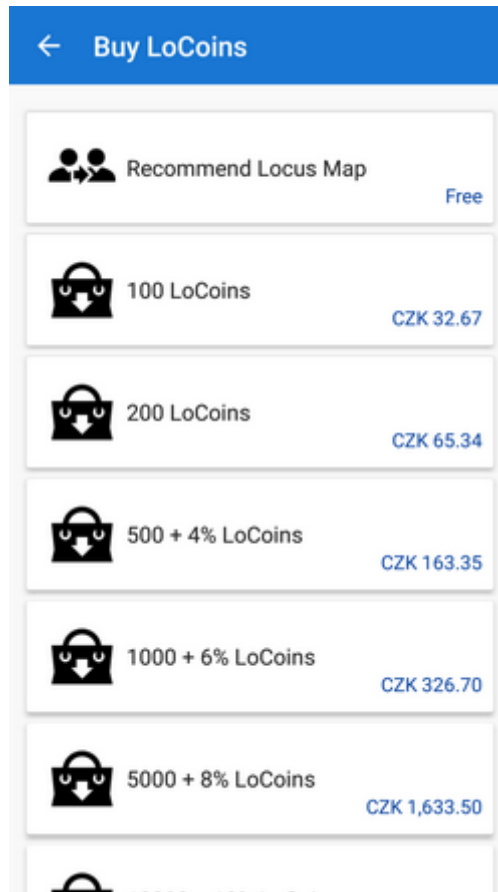

How to get LoCoins?

Purchase

- LoCoins can be purchased in the [User Profile](#). The purchase is processed by **Google Play Store**.

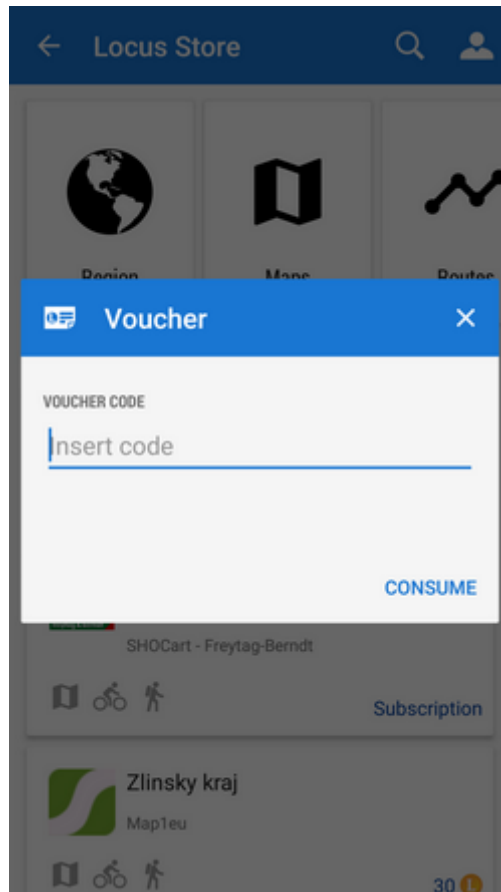

- LoCoins can be purchased in **packets**. From 500 LC the packets contain also some extra LoCoins as a **bonus**. The bigger the packet, the greater is the bonus.
 - available packets: **100 LC, 200 LC, 500 + 4% LC, 1000 + 6% LC, 5000 + 8% LC and 10000 + 10% LC**

Voucher

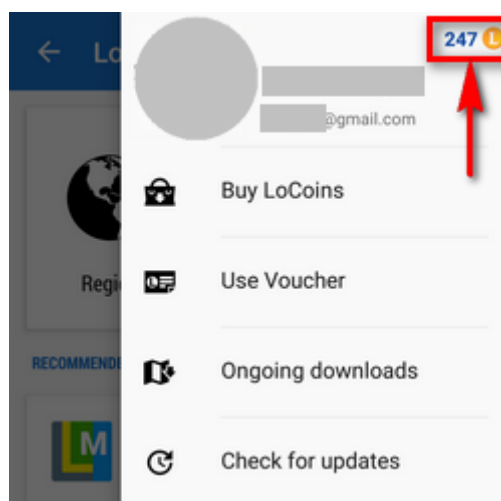

The Voucher is sent to a user via e-mail as a **reward**, a **gift** or in a **promotion** action. Voucher contains a **unique code** that is entered into a **dialog in User profile**:

After entering the code the LoCoin credit is charged by the given amount. The only authority to send Vouchers is Asamm Software, producer of Locus Map.

LoCoin Credit

- **Supply of purchased LoCoins** - it serves as your **virtual wallet** for all purchases in Locus Store:

- **LoCoin credit is associated exclusively with the Google or Facebook account you provided when authenticating your Locus Store user profile**

Terms of Use

- LoCoins are not transferable, can not be subject of lending or further re-selling
- **LoCoins are valid only for Locus Store**, they are not enlisted as an official currency by any financial authority
