# ANT+ Manager

ANT+ is a wireless technology of monitoring devices mutual communication. Locus Map can communicate this way with heart rate monitors, bicycle speed/cadence sensors, stride sensors and many others. More about ANT+ and supported devices here >>

Instructions of Use

- Menu > More functions > ANT+ Manager
- **topbar** - contains menu of connectable devices - check those you are willing to use
- the item appears in the **ANT+ manager list**. You can switch it on and start collecting data.

A list of tested and supported devices is available HERE >>

> Switching the device connection on may need additional download of missing ANT+ library from Google Play, depending on your mobile device.
