

How to place a point of interest on the map?

BTW, what is a point of interest, a.k.a. POI?

POIs are places on the map that carry some more information you are interested in. **Just tap them.** Usually they describe things like **monuments, theaters, museums, pubs, hotels** etc.

Locus Map allows you to place **your own POI** to mark anything you like on your trip, to show your friends your address on holidays or to let yourself navigate to it. It's simple:

- **1.** touch the screen on the place you'd like to save and hold a sec. A small frame with address appears. **2.** tap it once more to open the POI detail window.

- tap  in the left lower corner.

- edit name of your point or just leave what is in the place of name and tap **Save**.

The screenshot shows the 'Edit' screen for a POI. At the top right, a 'SAVE' button with a checkmark icon is circled in red. The screen is divided into two tabs: 'BASIC INFO' (selected) and 'ATTACHMENT'. The 'BASIC INFO' section contains the following fields:

- ICON & NAME:** An information icon 'i' followed by the text 'Dr. Beneše 966' with a red asterisk.
- FOLDER:** An information icon 'i' followed by the text 'various' with a red asterisk and '0 / 31' to the right.
- LOCATION:** The coordinates 'N 49°10.973', E 17°31.296' with a red asterisk and a location pin icon to the right.
- DESCRIPTION:** The text 'Description' with a red asterisk.
- ELEVATION:** The text '188.087' with a red asterisk, a unit selector 'm', and a 'GET' button.
- ADDRESS:** A sub-section with the following fields:
 - STREET:** The text 'Dr. Beneše 966' with a red asterisk. A red arrow points to a red asterisk on the right side of this field.
 - CITY:** An empty field.

*all these items can be edited

POIs are listed in the  Points manager.

The screenshot shows the 'Data' screen with a blue header and a list of POI categories. The 'POINTS' tab is selected and highlighted with a red box. The categories are:

Category	Count
caches	0 / 409
castles	0 / 8
photos	0 / 10
various	0 / 31
