

What's Locus Map?

Like going for a **bike ride**? Or **hiking in the mountains**? What about **looking for geocaches** in your neighborhood? Or **visiting a city** you've never been to before? Then **Locus Map** is your true companion!

- It shows you [where you are](#) in the middle of nowhere on an [offline map](#)
- It [guides you](#) through a [geocache hunt](#)
- It [navigates](#) you along the streets to the newly opened vegan restaurant

And you can do many more!

- [Record](#) your favourite **bike tracks**
- [Store](#) your **trip highlights**
- [Export](#) your **daily runs** directly to [Runkeeper](#) or other services.

Locus Map surprises you every day, it's loaded with functions you haven't ever expected you would need sometimes. For example you'll never forget where you [parked your car](#) in front of a big mall.

So here we go!

For your first steps with Locus Map see the tutorial:

If you need more information about the Locus Map application, check section [About Locus Map](#) of this User Guide.
