

Bing, Google, Yahoo or Nokia/Ovi maps cannot be used

Locus application does not support the usage of these maps for **breach of terms of use** set by the providers of these maps. You have probably used the maps in Locus previously thanks to **MapTweak add-on**, which is not developed nor supported by **Asamm Software, s. r. o.**

Asamm Software company **is not responsible for any damage** caused by Maptweak addon to Locus Map users nor to involved map providers.
