Add-Ons, Cooperating Apps and Web Services

Add-ons are mini-applications that add more features to Locus Map. Add-ons are not functional without installed Locus. Some of them are created directly by the Locus developer but great majority comes from independent devs.

All add-ons need to be connected to Locus Map. **Switch the connection ON** in Locus *settings > Miscellaneous > Connect with add-ons*.

Asamm Software Add-Ons

- Locus Map Watch
- Munzee
- Augmented Reality
- Contacts
- SmartWatch2

Add-Ons of Other Developers

Asamm Software is not responsible for functioning, non-functioning, updates nor any damage caused by these add-ons. Their list is informative only and may differ from the

actual offer.

- Locus Map for Garmin
- GPS Trace
- Freemap.sk
- Parcel Info
- HS-CAT

Geocaching add-ons from other developers

- Geocaching4Locus
- FieldNotes
- GeoGet Database
- GSAK Database
- Solver
- New Cache Point
- Satellite Images

Cooperating Apps

Cooperating apps are autonomous applications that can exchange some data with Locus. All of them are created by independent developers.

- GPS Status & Toolbox
- GPS Averaging
- POI Pocket
- Geofun

Geocaching co-apps

- WhereYouGo
- C:GEO
- GCC - GeoCache Calculator

Web services

Web services are WWW sites that directly cooperate with Locus - exchange data with it and can be controlled within the app. Web services are accessible from *Main Menu*.
