## **Notification center**

This is the place where **all announcements from Locus app, its developers or various actions** are displayed. E.g. when you download maps, routes or elevation data from **Locus Store**. Or when there are some news on **Locus website**, or when Locus reminds you of remaining map gifts, informs about polls, sends messages from devs etc.

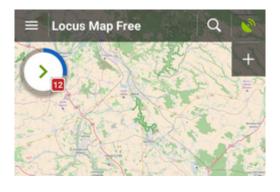

Its icon/button appears in the upper left corner of the main screen:

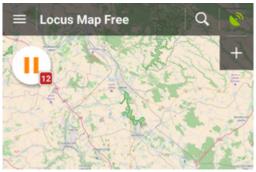

When you **tap** the button you unfold the list of announcements:

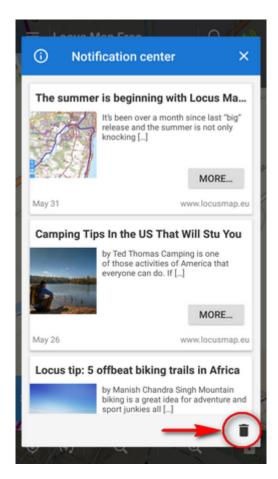

The icon/button changes its appearance according to some actions in background. E.g. it works as a downloading indicator:

Individual announcements can be **swiped away** from the list or the whole box can be emptied by tapping a button in its bottom:

https://docs.locusmap.eu/ Printed on 2024/04/25 13:49

2024/04/25 13:49 3/3 Notification center

When nothing is to be announced, the notification center button is deactivated.
