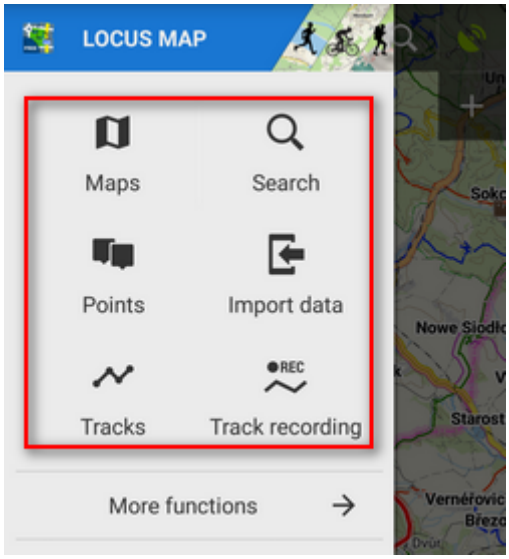
Main Menu and its Settings

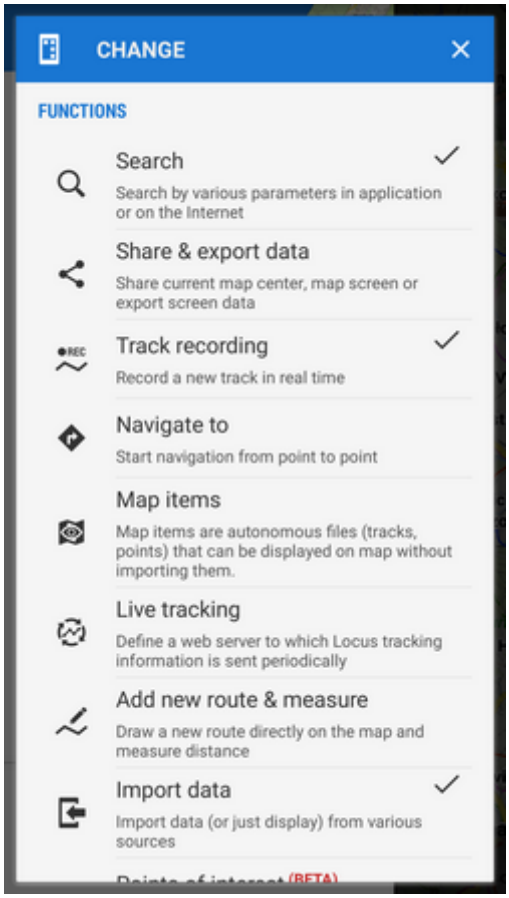
Main Menu

The first six buttons of Locus Map's main menu can be set according to your needs (similarly to the Functions Panels):

- open the Main menu
- long tap any of the first six main buttons



- select another function from the portfolio and tap it

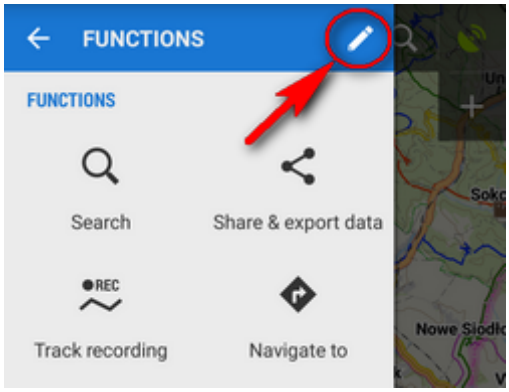


- the button shortcut has been changed

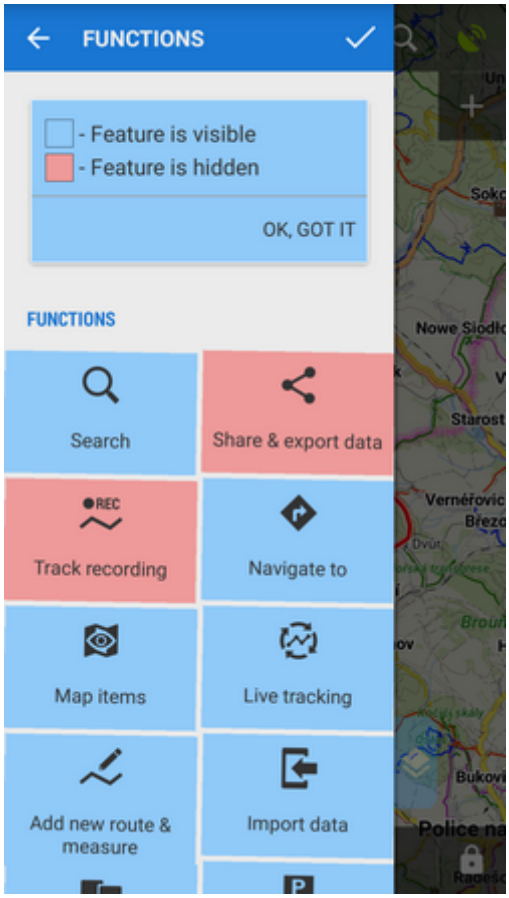
More functions ->

By default, this section contains **all features and functions** Locus Map provides which can be a bit too complex for somebody - it is possible to activate only those buttons of features you are going to use and others deactivate. It's simple:

- tap button in the upper bar



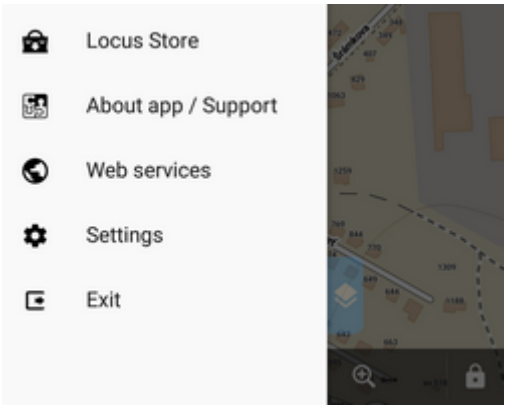
- active buttons are blue - by tapping you can deactivate them - they turn red



- confirm by ✓ button
- the red-highlighted buttons disappeared from the menu > more functions

The settings can be changed any time - turn the red buttons into blue and activate them back.

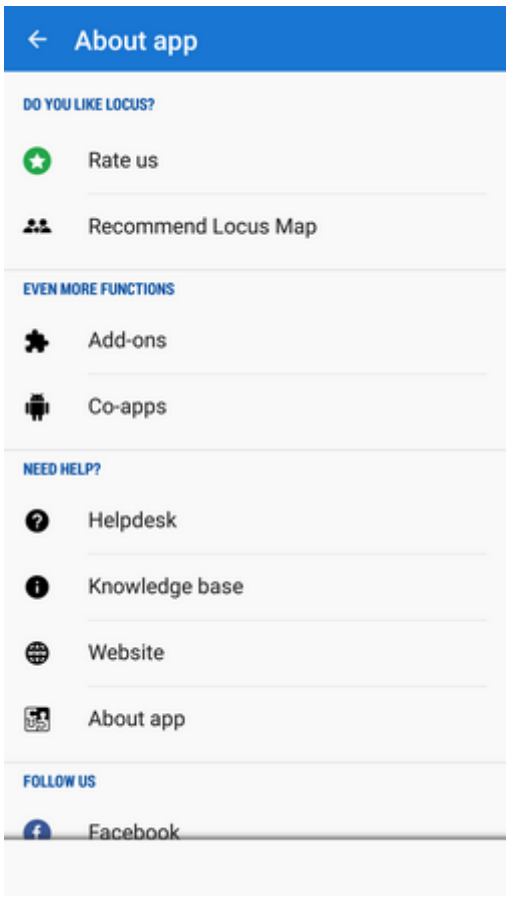
Rest of the menu is not configurable:



Locus Store

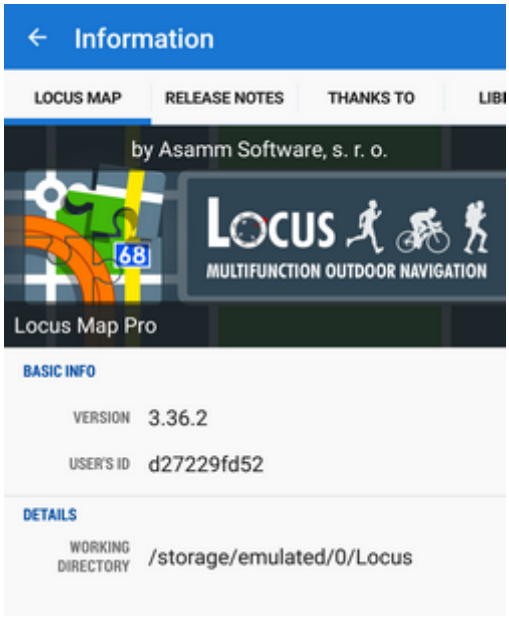
- leads to **Locus Store** where you can download maps, graphics and additional features. The button is not editable.

About App/Support



This section sums up all information regarding Locus Map as application. Here you can

- **rate app** on Google Play
- **recommend app** and get LoCoins as reward
- get to all Locus **add-ons** and **cooperating apps**
- get **help**
- get more information at **Locus website**
- get info about the **app version, user ID, used working directory, latest release notes** etc.:



- follow us on **Facebook**, **Google+** and **Twitter**

Web services

This button leads to third-party **Web services** linked to Locus, providing additional content - GPSies.com and Vylety.zabava.cz.

Settings

- all **Locus Map settings >>**

Exit

- turns Locus Map off. Not visible when fullscreen mode is off.
